

4 Problematic Assumptions About Race

1 Racism is an issue of the past.

Many people think that racism doesn't exist anymore. This is not true and we can see the evidence of that in our country today.

2 Racism is something that bigoted people do intentionally.

Racism is much bigger than individual people and actions.

3 Prejudice causes racism.

People aren't born prejudiced. Prejudice comes from an environment of racism. Therefore, racism causes prejudice.

4 We need to focus on individual racism.

Racism is an institutional issue. We can be distracted by focusing on individual racism.
