

5 Tips for Setting Up Your Virtual Meeting

Check Your Name

Make sure your name is labeled correctly.

Adjust Your Camera

Adjust your camera so that you take up most of the screen.

Get Your Lighting Right

Set up your lighting so that everyone can see you and you aren't dull or in a shadow.

Upgrade Your Sound

Do not use the sound that comes with your computer. Invest in a headset, microphone or AirPods.

Don't Depend on WiFi

Connect your computer directly to your router with an ethernet cable.
